

# Pillar of Compassion

## Life's difficult journey creates invaluable expertise.

You've been diagnosed with cancer. Do you give up? Do you fight? These are the questions that faced Director of Emergency Services and RN Lisa Faherty-Bilse at the tender young age of 32.

For Lisa there was no question. It was fight.

Today she can look back with her contagious grin and declare herself a cancer survivor. She beat the odds. But she doesn't forget the pain, stress, anxiety and fear it caused her and her family. This makes Lisa uniquely qualified to offer hope and empathy to patients with their own healthcare struggles.

"You survive, but you don't forget," explains Lisa. "And it is truly a situation where you can't know what it feels like unless you've been there. I've been there and back. And that acts as an amazing and powerful beacon of hope to others."

While a skilled and accomplished Emergency Nurse, Lisa stands by the philosophy that positive attitude is key when battling health issues. And she is exceptionally qualified to take that message to any that need it.

Lisa views each and every day as a sweet gift to savor. She is just one of the many exceptional people at Upland Hills Health. Dedicated to caring for the body and spirit of our patients.

*Lisa Faherty-Bilse, RN is the  
Director of Emergency Services  
at Upland Hills Health.*
