

# Profiles in Healing

## Heart-felt thank yous are a true measure of performance.

Ask Dr. Kramer what makes a great day and he'll share the difference a simple thank you can make.

Whether patients offer thanks with a note or smiles, its proof that he's doing something very right. More than a medical expert, Dr. Kramer is a confidant and caregiver.

"Connection to the patient is a powerful tool," comments Kramer.

"Working with the patient and family offers the best hope for progress. And it's what makes practicing medicine in this community so rewarding"

A local farm boy that went from hands-on projects, to volunteering to a career in healthcare, Dr. Kramer devotes his attention to the details that are important to his patients.

Dr. Kent Kramer is just one of the many exceptional physicians on the Upland Hills Health team. Dedicated to providing quality healthcare in southwest Wisconsin.

*Dr. Kramer practices at Mineral Point Medical Center 987-2346 and Dodgeville Medical Center 935-2308.*
