

Mission to Serve

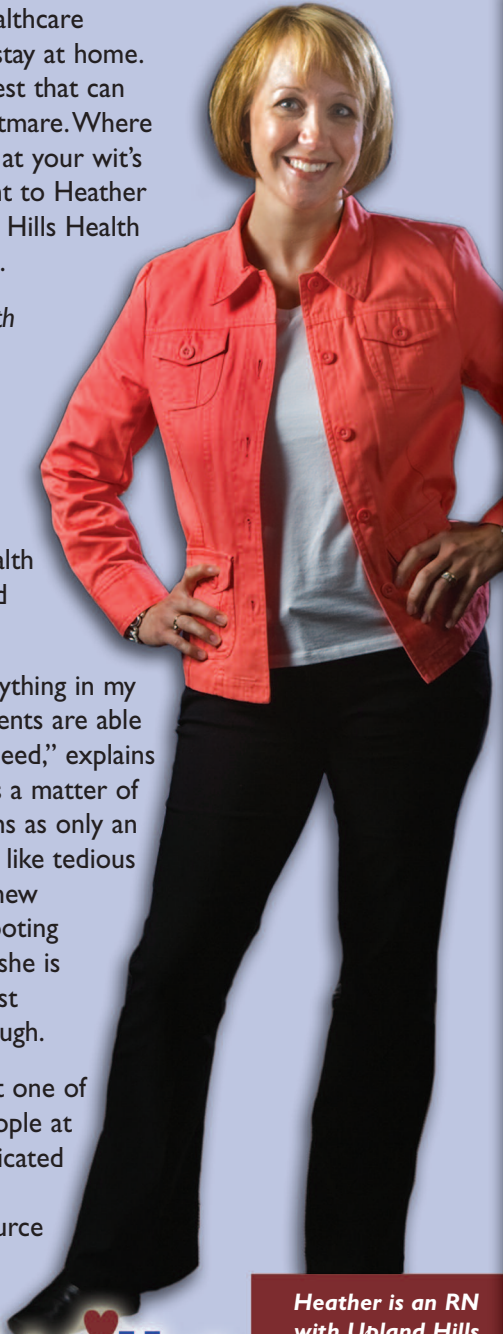

Changing world transforms registered nurse to resource nurse.

A fragile relative with healthcare concerns who wants to stay at home. A seemingly simple request that can turn into a complex nightmare. Where do you go when you are at your wit's end? Lots of folks go right to Heather Johnson RN with Upland Hills Health Home Care and Hospice.

Experience working with caregiver networks, government agencies and insurance companies has given Heather a unique ability to help families navigate the increasingly complex maze that is health care. She's a resource and proud of it.

"My role is to do everything in my power to make sure patients are able to access the care they need," explains Johnson. "Many times it's a matter of understanding the systems as only an insider can." It may look like tedious work—finding contacts, new programs and troubleshooting problems—but knowing she is helping many in Southwest Wisconsin is reward enough.

Heather Johnson is just one of the many exceptional people at Upland Hills Health. Dedicated to serving patients and families that need a resource in healthcare.

Heather is an RN
with Upland Hills
Home Care &
Hospice 930-7210.
